- Autocomponents “Avtek” LLC. has been successfully operating in the Ukrainian automotive market for more than 20 years (since 1996).
- The company provides a full range of services: spare parts distribution, transport logistics, warehousing.
- Top range of spare parts – more than 18 000 items of products, that are always in stock;
- The leader of the transport sector of Ukraine for several years;
- Avtek – is the leader in sales of MAZ brand, FORD, MTZ and the best dealer of KAMAZ brand.

1. Head office
2. Logistic complex
3. Service and production
4. Carwash
5. Logistic complex

The head office area: 3 678,5 sq.m.

The total area of industrial and warehouse space: 19 800 sq.m.

- Own park of vehicles: more than 25 vehicles with load capacity up to 20 tons, which provides delay-free and efficient delivery from warehouse to door;
- Qualified team of logistics and customs brokers;
- Using modern computer software for management of transport logistics;
- High level of service as a result of the integration of its software with the programs of the country's largest courier services;
- Optimum selection of goods delivery route by using Google maps system;
- Online tracking of each expenditure invoice using GPS-systems integrated with system of transport logistics management;
- Own custom warehouse for temporary storage of goods without collecting taxes and duties and without applying to them methods of non-tariff regulation.

- The company uses its own warehouses that are equipped with rack systems and other modern storage equipment;
- Accuracy in management and optimal use of storage resources is achieved through the introduction of modern automated warehouse management system (WMS);
- Full control of the goods safety is achieved through the use of the warehouses high-definition cameras, in the areas of goods packaging. Also appointed by arched metal detectors and access control system of the entrances / exits of people from the warehouse;
- Almost reduced to zero the number of re-sorting goods using goods bar coding, cells, packaging and terminals for data collection and warehouse management system;
- Effective use of available storage space that was achieved by the use of storage equipment and systems for the automatic selection of the best locations for accommodation and writing of goods;
- Inventory of all stock held as soon as possible due to the complete automation of the process, as well as the application of the system for the automatic issuance of a partial inventory of tasks upon detection of shortage during the selection of goods;
- Warehouse infrastructure of the company is represented by two logistics complexes with total area of 11 480 sq.m.

«A» class logistic complex

- Location: center of Kyiv
- Total area— 6 480 sq.m.

«B» class logistic complex

- Location: Kyiv region, Borodyanka
- Total area of premises: 5000 sq.m.
- Total area of the territory: 3,6 He
- Working hours: 24 hours

«AVTOCOMPONENTS «AVTEK» ACTIVITIES

Own sales, manufacturing and warehouse premises, located in Kyiv city and region

Own logistic complex with total area more than 11 000 sq. Total area of the territory is 7.6 he.

Cooperation with a large number of suppliers (90 Ukrainian and 160 foreign)

Direct deliveries from the major manufacturers

Gross profit for sales of parts of CIS production: 20 millions USD per year. The share of sales of spare parts of the CIS in Ukraine – 25% of the market

Modern control system monitoring trade policy, storage and distribution of goods with the possibility of an automatic forecasting of demand

Successful team of highly skilled and technically trained personnel. Personnel represented by 250 employees

Own private TM «S.I.L.A.»

Wide sales network of more than 500 large wholesale dealers, which collectively owns more than 2000 retail sales points

OUR BUSINESSES

Product portfolio:

Original spare parts

Original spare parts for trucks and tractors of the CIS countries production, which are represented by more than 18 000 items

Lubricants and industrial fluids

Lubricants for industrial, commercial and construction equipment, agricultural machinery and light vehicles

Tires

Tires for trucks, cars, construction and agricultural machinery

Batteries

Large selection of original batteries

Trademark Products S.I.L.A. are carried out under the control of our specialists at the enterprises of Ukraine, Russia, Belarus, China, Poland, Turkey and other countries. We carefully select our suppliers for the manufacture of our products. These enterprises have a long history and many years of experience in manufacturing products under their own brands. All these enterprises undergo a clear selection system, which includes:

- Initial inspection of production by our specialists, where we determine the appearance of factory capacities, the degree of the company's technical weapons, the availability of a quality control system, the degree of development of quality management of labor etc.;
- Products sampling for testing in Ukrainian laboratories;
- Comparative analysis with similar enterprises in the region;
- Analysis of pricing policy;
- Other conditions arising from the inspection of production. Due to our long-standing close relationship with manufacturers and constant control of the market situation, we are able to offer to the consumer high-quality products at an honest price.

TM S.I.L.A. goods are products with exceptionally positive history. Careful selection of suppliers and their products, no returns and complaints, high quality and reasonable price is a distinctive feature of the products TM S.I.L.A.
